

Derek Amanatullah, MD, PhD

Orthopaedic Surgeon · Hip & Knee Replacement · Stanford University

HEAL · DISCOVER · TRANSFORM

A surgeon, scientist, and inventor caring for your hips and knees. Fellowship-trained at the Mayo Clinic and board-certified, Dr. Amanatullah is an Associate Professor of Orthopaedic Surgery at Stanford and a member of the Knee Society — the living “Hall of Fame” of knee replacement. Trained as a biomedical engineer (USC) and physician-scientist (MD/PhD, Albert Einstein), he unites **surgery, research, and engineering** so that discoveries made in his lab and inventions built for the operating room reach you at the bedside.

Care

THE SURGEON

- **Hip & knee replacement** — primary, complex & revision
- **Joint infection** — diagnosing and curing infected replacements
- **Hip & knee arthritis** — including non-surgical options
- **Personalized, team-based care** focused on getting you back to your life

Research

NEARLY 300 PUBLICATIONS

- **Detecting hidden infections** standard tests miss
- **Bacteriophage therapy** for antibiotic-resistant infections
- **Care for every body** — technique & teamwork over body size
- **Measuring true recovery**, not just satisfaction scores

Innovation

29 PATENTS · 5 COMPANIES

- **AI in the operating room** to reduce surgical errors
- **Smarter knee & hip instruments** for a better-balanced joint
- **Sensor-guided tools** for precise implant placement
- **New tests & treatments** for joint-replacement infection

“The best ideas start at the bedside, and I am driven by those ideas to make care better for every patient.”

RECOGNITION

Board Certified, American Board of Orthopaedic Surgery · **Member, The Knee Society** · Fellow, AAOS & AOA · **Editor-in-Chief**, Journal of Bone and Joint Infection · Featured in *The New York Times* for compassionate care · Among the most-cited and most-published orthopaedic clinicians (Doximity) · HLTH Surgical Transformation Award
