

Derek Amanatullah, MD, PhD

Orthopaedic Surgeon · Hip & Knee Replacement · Stanford University

HEAL · DISCOVER · TRANSFORM

A surgeon, scientist, and inventor caring for your hips and knees. Board-certified and fellowship-trained at the Mayo Clinic, Dr. Amanatullah is an Associate Professor of Orthopaedic Surgery at Stanford University and a member of the Knee Society, the living “Hall of Fame” of knee replacement surgery. He unites surgery, research, and engineering so that the discoveries from his laboratory and the inventions built for the operating room reach you at the bedside.

Featured in *The New York Times*, which highlighted the empathy and surgical skill Dr. Amanatullah brings to caring for every patient, including those others turn away.

Care

THE SURGEON

- **Primary hip and knee replacement**
- **Complex and revision surgery** to repair failed or worn implants
- **Advanced technology**, including custom knees, robotics, hip and knee sensors, and augmented-reality hips
- **Diagnosing and curing** infected joint replacements
- **Hip and knee arthritis**, surgical and non-surgical options
- **Care for every patient**, regardless of body size

Research

IMPROVING YOUR OUTCOMES

- **Detecting hidden infections** that standard tests miss
- **Bacteriophage therapy** for antibiotic-resistant infections
- **The immune system’s role** in joint-replacement infection
- **Equitable access** through better technique and teamwork
- **Surgical efficiency** and team dynamics for safer operations
- **Measuring true recovery**, not just satisfaction scores

Innovation

BUILDING BETTER SURGERY

- **AI in the operating room** to reduce surgical errors
- **Custom, balanced knees** tailored to your anatomy
- **Sensor-guided robotics** for precise implant placement
- **Augmented-reality guidance** for accurate hip positioning
- **New tests and treatments** for joint-replacement infection
- **Founder of five companies** translating ideas into care

“The best ideas start at the bedside, and I am driven by those ideas to make care better for every patient.”

RECOGNITION

Board Certified, American Board of Orthopaedic Surgery · **Member, The Knee Society** · Fellow, American Academy of Orthopaedic Surgeons and American Orthopaedic Association · **Editor-in-Chief**, Journal of Bone and Joint Infection · Among the most-cited and most-published orthopaedic clinicians (Doximity) · HLTH Surgical Transformation Award · Charles A. Engh Sr. Excellence in Hip Research Award
