

Derek F. Amanatullah, M.D., Ph.D.

Orthopaedic Surgeon · Hip & Knee Replacement · Stanford University

HEAL · DISCOVER · TRANSFORM

A surgeon, scientist, and inventor caring for your hips and knees. Board-certified and fellowship-trained at the Mayo Clinic, Dr. Amanatullah is an Associate Professor of Orthopaedic Surgery at Stanford University and a member of the Knee Society, the living “Hall of Fame” of knee replacement surgery. He unites surgery, research, and engineering so the discoveries from his laboratory reach you at the bedside.

“ FEATURED IN THE NEW YORK TIMES

The Times profiled Dr. Amanatullah for the empathy and surgical skill he brings to patients living with obesity, who are too often turned away by other surgeons, and for his commitment to making safe, life-changing joint replacement possible for every body. ”

AWARDS

Care

THE SURGEON

- **Primary and partial knee replacement**
- **Tissue-sparing hip approaches**, including direct superior and mini-posterior
- **Same-day, outpatient** joint replacement
- **Complex and revision surgery** for failed or worn implants
- **Advanced technology**, including custom knees, robotics, hip and knee sensors, and augmented-reality hips
- **Diagnosing and treating** infected joint replacements
- **Care for every patient**, regardless of body size

Research

IMPROVING OUTCOMES

- **Detecting hidden infections** that standard tests miss
- **Bacteriophage therapy** for antibiotic-resistant infections
- **The immune system's role** in joint infection
- **Equitable access** through better technique and teamwork
- **Surgical efficiency** for safer operations
- **Measuring true recovery**, not just satisfaction
- **Advancing the science** of bone and joint infection

Innovation

BETTER SURGERY

- **AI in the operating room** to reduce errors
- **Custom, balanced knees** for your anatomy
- **Sensor-guided robotics** for precise placement
- **Augmented-reality guidance** for accurate hips
- **New tests and treatments** for joint infection
- **Founder of five companies**
- **Engineering precision** built into every operation

RECOGNITION

Board Certified, American Board of Orthopaedic Surgery · Fellowship-trained, Mayo Clinic · Associate Professor of Orthopaedic Surgery, Stanford University · Director, Adult Lower Extremity Reconstruction, Stanford · Member, The Knee Society · Fellow of the AAOS, AOA, and the American Association of Hip and Knee Surgeons · Fellow, Musculoskeletal Infection Society · Editor-in-Chief, Journal of Bone and Joint Infection · Among the most-cited and most-published orthopaedic clinicians (Doximity) · Research All-Star, top 1% in orthopaedic surgery (Avant-garde Health) · John N. Insall Knee Society and Rothman-Ranawat Hip Society Traveling Fellowships · Stanford BioDesign Faculty Fellowship · HLTH Surgical Transformation Award · Charles A. Engh Sr. Excellence in Hip Research Award
